I'm Jeff Christensen, owner of Zerorez in Southern California. Our clients are amazed at how effective our patented 12 pH alkaline water is for cleaning carpets, area rugs, upholstery, tile and grout, and other surfaces. Well, now we want you to know that 8-9 pH creates a super anti-oxidant drinking water with many healthful properties (see the chart on the right). We have entered an alliance with the Enagic® Company to communicate that the principles that allow high pH water to clean your household surfaces also convert lower pH water into a miracle cleansing liquid for your body. Take a look at the attached article to learn more about the amazing properties of alkaline water.

ELECTROLIZED, ALKALINE WATER... THERE REALLY IS SCIENCE TO CARPET CLEANING

We are often asked, "Is there true science to Zerorez® carpet and upholstery cleaning, or is it all marketing hype?" The answer is an unqualified "Yes there is!" Zerorez® is the ONLY company that can honestly promise we won't leave soap or chemical residue in your carpet or furniture, because we are the ONLY company using the patented power of 12 pH alkaline water to clean. The water has been modified at the molecular level to create millions of reduced size cleaning molecules to penetrate dirt and oil. No soap, no detergent, and no solvents, just pure, environmentally friendly, electrolyzed alkaline water that penetrates, cleans and emulsifies better than soap without the residue that can lead to faster re-soiling, bacteria growth, dangerous chemical reactions, and physical damage to your surfaces.

Now there is even more to our story! It turns out that alkaline water is a super anti-oxidant that is a fantastic drinking water with many healthful benefits. For decades the Japanese have known that alkaline water is a miracle beverage, they live longer than we do, they weigh less and they tend to be healthier. So we're proud to join forces with the Enagic® Company to spread the word. Enagic® manufactures a small home machine that produces 7 different kinds of water at the push of a button. Kangen Water™ and the much higher pH Zerorez® cleaning water both deliver incredible results! **Just ask your Zerorez® technician for a free gallon of Kangen Water™ when they come to your home. Try it and see what you think and we'll give you a free DVD to help explain the science behind it. You will be amazed!**

Of course our main goal is to help make your house sparkling clean without chemicals or soapy residue. Call us now and we'll show you what it means to "clean green" with our healthy, patented Zerorez® alkaline water cleaning process.
